

Community of Practice 1

Integrated Actions For the SDGs

Integrated action: action that seeks to manage synergies and trade-offs across SDGs.

Why this CoP?

- **To explore how integrated actions based on cooperation among multiple stakeholders across sectors, specialties, levels can accelerate SDG progress.**
- **Countdown to the SDG Summit webinar series showed that**
 - Many individuals/entities working on SDG interlinkages,
 - Across different sectors, specialties, levels and contexts,
 - Typically, in a fragmented/partial way despite similar challenges.

What will this CoP do?

- **This Community of Practice brings together academics, policy makers and practitioners** to explore, refine, learn from each other about different integrated approaches that address synergies and trade-offs with a view **to advance integrated actions for achieving the SDGs.**

The Community of Practice will:

- **Share experience, knowledge, and scientific research** relating to integrated approaches to accelerate progress towards the SDGs.
- **Encourage a critical exchange of ideas** on research, in the interest of advancing the understanding and development of integrated policies and practices at all levels.
- **Share good practices in leveraging integrated approaches** amongst members and with a wider audience.
- **Identify areas for cooperation, including joint projects** and partnerships, to address current and emerging challenges raised in the CoP and to inform policy and practice.
- **Share and develop tool kits** to facilitate the implementation of integrated approaches and solutions.

Work programme

- **Initial phase** (completed): Webinar series that brought together experts to share recommendations on integrated actions for each SDG.
- **Current phase** (until November 2024)
 1. **Community building:** Invite webinar speakers to become members of the CoP and identify additional individuals/networks to join the community.
 2. **Webinars/taskforces:** Convene members around key challenges for integrated SDG approaches (agenda co-developed with members)
 3. **Database/questionnaire:** Invite members to register their integrated actions in the online database.
 4. **Build up a library of resources** for advancing integrated actions.
 5. **Host events at the HLPF and SotF** to launch the project, build community and further develop the work programme.

How to join this CoP?

Dr. David Horan, Convenor of CoP1, SF and Asst. Prof. at Trinity College Dublin, Trinity Business School

Dr. Ahmed Rachid El-Khattabi, Project Assistant, SF, and Executive Director for Research and Data at University North Carolina Chapel Hill Environmental Finance Center
