- CoP 2 co-facilitator - Jan-Gustav Strandenaes, SF Senior Advisor and longtime Norwegian sus dev expert

Questions framing panel discussion

2030 Agenda is designed as an integrated agenda for action on sustainable development:

- What does integration mean to you in practice in your work?
- Are there specific contexts where integration is especially valuable for making durable progress towards the SDGs, nature-based solutions, climate action?
- Can you cite a concrete example of the value added that adopting an integrated approach has brought to your work?
- What in your mind are the main challenges to achieving more effective integrated actions for the SDGs, climate, nature?
